To Whom It May Concern:

Do we value human life? Do we value our right to freedom? When Hitler killed 3 million jews did that concern anybody? Of course it did. Do some think Hitler was evil? Of course they do. I am one of those, and I believe that what Hitler did was no different than what the abortion clinic is doing. We want to assume that a baby is not really alive until 3 months. Hitler wanted to assume that Jews were not really human. Do you see the connection?

If Hitler pointed a gun at you and said, "Get in that dozer and bury those Jews. Not every one is dead, but bury them anyway." Would you do it? Would you take his gun and shoot the Jews if he told you to at gun point? Do you value your life? Would you think it was fair if someone killed you when you were only 3 weeks old?

God values human life too. The 6th commandment says "You shall not kill". God said this directly to his people. Now we are doing exactly what people got stoned for. Some people say, none of those children have a good life ahead of them. It would not be fair to them. Would you kill a line up of down syndrom kids? Maybe they don't have a fair life either.

Consider what you are doing. Make the right choice. The one God would make. After all, the world refers to America as the "Christian Nation". Are we? Our country is becoming like a lot of others that I have read about. Think on these things.

Sincerely,
david stelzl
